Notes

He knows words, He has the best words Really enjoyed this professor. Very kind, approachable and funny in lectures. You can tell he really wants his students to succeed. Very fair grader. Would recommend taking any class from him. This guy gets it. He cares about students and it is apparent that he wants his computer science students to succeed in industry. Tom knows his stuff and has a great semi-laid back approach to teaching that keeps you interested. The first couple of assignments are hard, but if you can make it through those you will survive the class. Don't skip his lectures or you will miss good info that will help you succeed. Will take any class he teaches.
